

Grenfell Tower

People coming together
For those they didn't know
No matter what the weather
They couldn't let this go

Through the mistakes of others
They joined as one
For men, women and children
All those who are now gone

Still fighting for justice
They will never give up
For what's happened so far
Has not been enough

From the help of the community
Which has never been so strong
To the bad planning of security
Which is where it all went wrong

In the end it could've been different
May this never happen again
Let the decisions not be made
By the selfish businessmen
