Introduction

Transition means a time of change. In this case, an exciting change from Year 11 to the next stage in your learning or training. This might be on to an apprenticeship or traineeship, or to college or sixth form to study A Levels, a T Level or vocational/technical courses. Whatever you have decided, or even if you haven't yet made up your mind, this booklet is here to help.

Sixth forms, colleges and training providers want to keep you up-to-date on what they have on offer and over the following few pages you will find information on all of the main providers. If you still don't get the answer you need, there are details of who to contact at each organisation.

Not all apprenticeship training providers are listed in this document. However, the Lancashire Forum provide support for apprenticeships across all of Lancashire and can offer you support. They will be more than happy to help and can be contacted at: info@lancsforum.co.uk

New Directions Careers Service are also keen to support you and can offer one-to-one guidance over the phone. You may have had a one-to-one careers guidance meeting with them already in school. They have up to date information on all providers and can help you with applying if you have not yet done so. They can be contacted by phone on: 01254 666424 or email: newdirections@blackburn.gov.uk

Remember, you're not on your own! There is lots of support on offer to help make your move to the next stage of your learning/training as smooth as possible.

Good luck!

Choices after Year 11

Your choices after Year 11

Young people have to stay in education or training until their 18th birthday. There are three main ways to do this:

- > Continue to study full time
- > Get an apprenticeship or traineeship
- > Work or volunteer whilst studying part-time

There are lots of post 16 education or training options available. You'll need to think about which one best suits your needs, interests and future plans. This education and training is free if you start before you turn 18.

Study full time

If you want to study full time, there are two main options: a school sixth form or a college. You will be able to choose from a wide range of qualifications and courses and these tend to be classed as academic or vocational/technical:

A levels - these are two year courses with an exam at the end. These courses are at Level 3. Most students take three A level subjects but you may be able to combine A Levels with another qualification. You would need to speak to your preferred school sixth form or college to see what they can offer. A Levels are one of the main routes into higher education.

Vocational/technical – Often referred to as Btec's or T Levels, these courses are designed to help you learn in a more practical way about an employment sector, such as travel and tourism or construction. Vocational/technical courses are jointly designed with industry and employers so you can gain the right knowledge and skills to help you progress into a job. Whilst the main progression route from vocational/technical qualifications is into employment, you can also progress into higher levels of study, including university.

T Levels are a two year course and are at Level 3. A T Level is the equivalent to three A Levels. T Level students spend 80% of their course in technical learning and 20% in an in-depth industry placement which is around 45 days (315 hours). The industry placement will give you real experience of working in your chosen industry. You'll also study English and maths if you have not yet achieved a GCSE grade 4 in these subjects. T Levels are currently being rolled out across the country and a range are already available across Lancashire. T Levels are assessed in different ways – including projects, tests and exams – and they allow you to progress onto an apprenticeship, skilled employment or higher education.

Choices after Year 11 continued

Apprenticeships

An apprenticeship is an excellent way to combine on the job learning while you're working and earning a wage. You'll get hands-on practical learning through your employer and you'll also go into college or to your training provider one day a week to learn the theory behind your chosen subject area. Apprenticeships are available in a wide range of subjects and they last for at least 12 months. You can start at Level 2 and progress all the way up to Level 7. As an apprentice, you'll be an employee and will receive a wage and other employee rights, such as holiday pay. Apprentices receive different rates of pay, depending on their age and where they are up to in their apprenticeships. A 16-18 year old apprentice is entitled to the National Minimum Wage.

Traineeships

A traineeship includes a work placement which will help you gain the skills and experience you need to progress into an apprenticeship or employment. You'll also get support with English and maths if you need it, as well as work preparation training.

A traineeship can last anywhere between six weeks and a year, though most last for up to six months. Unlike an apprenticeship, you won't receive a wage on a traineeship. However, you may be entitled to financial support through your education provider.

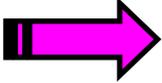

Work or volunteer whilst studying part time

If you'd prefer to work, or be your own boss, you are required to study a part-time course alongside this. You'll need to work for at least 20 hours a week, while you are in part time education.

Volunteering is a rewarding activity and can help you to make a difference within your community. It's a great way to gain experience and develop new skills. You can find out more about volunteering opportunities in Blackburn with Darwen at [Volunteering | Blackburn with Darwen Borough Council](#)

How to apply to college or sixth form

If you decide to progress onto a full time course at college or sixth form, below are the steps to take to ensure a smooth and successful transition.

- Step 1**  Visit the National Careers Service website to research your chosen career in detail and also speak to your schools careers advisor. [Careers advice - job profiles, information and resources | National Careers Service](#)
- Step 2**  Visit college websites to explore the course/subjects you are interested in. Read about what you will learn, how long the course is for and what the entry requirements are. It's a good idea to explore several college websites to compare.
- Step 3**  Visit colleges and sixth form open evenings to speak to the subject tutors and have a good look around. You should never assume you will like a college if you have never visited.
- Step 4**  Apply to **at least 2** colleges or sixth forms ideally before Christmas of Year 11. There is not a maximum number you can apply to. You can apply later but its important you check deadlines for each provider. The sooner you apply, the sooner you have an interview and secure a place.
- Step 5**  Attend all interviews and accept every place offered. This means you can choose which college you prefer on results day and have options should your preferred college no longer offer your chosen course or you no longer meet the entry requirements.
- Step 6**  Collect your GCSE results and enrol!!! There is more detail about this on the next page.

GCSE results day and enrolment

GCSE results day will take place on Thursday 24th August 2023. Your school will let you know their arrangements for collecting results before you leave. In most cases school will ask you to collect your results in person.

Enrolment on your chosen course.

If you have applied to a provider and accepted a place on a course, the provider will contact you to explain how and when to enrol. Make sure you check your emails and respond to any messages you may receive.

Colleges, sixth forms and training providers will also share information on enrolment arrangements via their websites and through social media (contact details can be found in this booklet).

DON'T PANIC!!! If your grades are lower than expected, there is **always** an option for you. Go to your chosen college who will review your results and also your options. Alternatively, the New Directions Careers Service team have up-to-date information on all of the providers in Blackburn with Darwen and beyond, so give them a call if you are want to discuss all of your options. (01254 666424)

They are also available if you haven't applied for anything yet and can support you to apply and enrol.

Apprenticeships

How to find an Apprenticeship

Finding an Apprenticeship can sometimes feel a little daunting but following the steps below can lead you in the right direction. Apprenticeships can take time and effort to find but there are lots of opportunities available. Lancashire WBL Executive Forum explains how:-

To apply for an apprenticeship you can:

- ◇ Look at our [Sorted Guide](#) which shows all the training providers and what apprenticeships they offer
- ◇ Contact a training provider by [clicking here and let them know the apprenticeship you are interested in](#)
- ◇ Go on www.gov.uk/apply-apprenticeship to search for current vacancies and to apply for an Apprenticeship. You can set up alerts to be notified of new vacancies as new ones arise every day.
- ◇ Attend careers fairs and open nights and get talking to employers.
- ◇ Go on companies websites and click on their careers tabs. You can make contact with a company and explain that you are looking for an apprenticeship.
- ◇ Have a Curriculum Vitae (CV) ready to share with providers and employers [CV advice | National Careers Service](#)
- ◇ Mention your interest in an Apprenticeship to friends and family. Sometimes its who you know!
- ◇ If you find your own employer, New Directions Careers Service can advise you on how to link your job offer to training. Call 01254 666424.

If an Apprenticeship is your preferred route, its essential that you apply for a college place as a back up plan.

With regards to a college place we will work with all learners to get them onto the correct level of programme. For an apprenticeship, this will be based on the completion of the initial assessments in Maths and/or English.

How will I be interviewed by an employer for an apprenticeship if I am in 'lockdown' or self-isolating?

This will be very much dependent on the employer. Some employers may rearrange for a later date, some may do Skype, Teams or Zoom interviews, and some may opt to do telephone interviews

I don't have an up to date CV and/ or don't feel I am ready to be interviewed for my apprenticeship

Please visit our careers coach website [Careers Coach](#)

Here you will be able to browse careers and courses, build your own CV, and take a careers assessment to learn about yourself, and Career Coach will give you career suggestions based on your interests.

What do I do?	What happens if I don't get on the apprenticeship I have applied for?
<p>Contact: Chloe Cooper on trainingadmin@westinghouse.com</p> <p>We are happy to chat through any questions you may have about the apprenticeship or what to expect from your time at Springfields.</p> <p>The website is a really useful source of information, to read previous apprentice's experience, read through our newsletter published by our apprentice team and find out what we produce here.</p>	<p>Follow the link below to find the Westinghouse webpage where you will find information on the apprenticeships we offer, as well as our application link:</p> <p>https://www.westinghousenuclear.com/careers</p> <p>We do not accept emails with CVs attached as we have a specific recruitment process.</p>	<p>We offer online applications initially, where you will fill out an online form for your chosen apprenticeship.</p> <p>As long as you have the predicted/ achieved minimum grade requirements, you will then be invited to participate in online aptitude testing.</p> <p>Following a successful pass, you will then be interviewed at Springfields by members of the apprentice training department.</p>	<p>Work experience is invaluable. If you can demonstrate on your CV or cover letter that you're passionate about both your career prospects and personal interests, this will demonstrate to employers that you're a well-rounded individual that has transferrable skills in the workplace.</p> <p>Not only does work experience benefit your CV, it will also allow you to refine your interests – it will show you what you would like to do, as well as identifying paths you would least like to follow.</p> <p>Make the most of career events where you can speak to current apprentices to see how their chosen subjects helped them. If you're interested in a particular apprenticeship, make your subjects match this. Even if change your mind, you can still explore the possibility of there will always be career opportunities in apprenticeships</p>	<p>Not being successful for an apprenticeship can be disheartening, but do not let this discourage you from continuing with apprenticeships.</p> <p>Constructive feedback on areas that can be developed is beneficial. Do not be afraid to re-apply the following year to the same employer, you will be more confident and an additional year of experience in the industry you're focusing on will help.</p>

Springfield Fuels Ltd—Westinghouse Continued

If I have changed my mind since I applied what do I do?

Let the training provider/employer know as soon as you have made your decision. They may be able to offer further information that will help with the decision. However if you're certain, they will be able to offer another learner the opportunity.

What happens if I don't get the GCSE/ A Level grades I am expecting (better or worse)?

Congratulations of exceeding expectations and doing better than you thought. However, sometimes things don't always go to plan and if you don't meet the minimum expected grades, then please speak to your training provider who will be able to offer further guidance.

How will I be interviewed by an employer for an apprenticeship if I am in 'lockdown' or self-isolating?

As most employers have worked through "lock down", they will have perfected several key interviewing techniques.

Online interview via Teams or Zoom is very popular – remember to make sure all your technology is working prior to the interview and check what is visible to the interviewing panel in your background.

Preparing a presentation is also another technique. You may be given a question or a problem that you will need to research and relay it as part of your interview. Remember to always stick to any time limits given.

Traineeships

<<new directions>>
Your Career, Your Future, Our BwD

What is a Traineeship

WHAT IS A TRAINEESHIP?

A Traineeship is a fully funded education and training programme for 16-24 year olds or 25 year olds with an Education, Health and Care Plan. A Traineeship is a pre-employment course acting as a stepping stone to help you get into work as you develop your skills. You will attend a training provider and gain valuable work experience with local employers. It can last from 6 weeks to 1 year, though most traineeships last for less than 6 months. For more information about Traineeships please click [here](#).

YOU CAN APPLY FOR A TRAINEESHIP IF YOU'RE:

- eligible to work in England
- unemployed and have little or no work experience
- aged 16 to 24 and qualified up to and including Level 3 (equivalent to A Level)

WHAT WILL I DO DURING THE TRAINEESHIP?

- help with getting work, such as writing a CV and finding a job
- a work placement of 70 hours or more
- help with the skills you'll need for an apprenticeship or job in the area you want to work in
- a job interview or feedback from an employer
- help with English, maths and basic digital skills (if you need it)

WHAT HAPPENS AFTER MY TRAINEESHIP?

Traineeships require the employer to carry out an exit interview, or new job interview if appropriate. Your training provider will offer you support and guidance with your job search and help you to feel confident in applying for and securing an apprenticeship, employment or further training. You may be offered a job or apprenticeship at the company you did your work experience with. 75% of trainees go onto employment or further education

HOW TO FIND A TRAINEESHIP

Our specialist areas are:</p> <p>Health and Social Care Computers, IT and Game Design Digital Photography, Graphics and Film and TV</p>

Applying for a place	Young people can still apply online for a place at the college. Please visit the college's website at: https://www.myerscough.ac.uk/courses/further-education/how-to-apply/
How do I get selected	<p>The college's departmental teaching teams and/or Admissions Team will be contacting you to arrange telephone/Skype discussions or they will assess your application form and make offers of places at a level appropriate to your expected/predicted GCSE grades, without the requirement for you to attend the college for an interview.</p> <p>The application form does contain a Personal Statement section which is used by tutors to assess your application. Please use this statement to provide as much as much information as you can, highlighting your enthusiasm for the subject and any experience you might have.</p> <p>Any applicants who require Additional Learning Support will have their applications forwarded to the Inclusive Learning team for consideration. These may take slightly longer to process but, rest assured, the college will progress them as quickly as possible.</p>
Course information	<p>For course information, please visit the college's website: https://www.myerscough.ac.uk/courses/further-education/.</p> <p>If you have any queries regarding the college's courses or if you are in the process of applying for a course, please call the college on 0800 652 5592 or send your enquiry via the college's Admissions Enquiry Portal.</p>
What can I do to help me prepare for Year 12?	Once you have submitted your application, the college will be in touch to keep you up to speed with things like the accommodation bookings, financial support and enrolments information. They will also send you links to lots of activities you can be doing over the summer to help you to prepare for your new course in September. These will be on the college website shortly under the #MyFuture banner.
Further information and guidance	If you have any queries about the courses on offer or if you are in the process of applying for a course, please get in touch with the college. The Live Chat function on the college's website remains active and staffed. If you have any questions, please use this to contact the college. Alternatively, please email the college at: enquiries@myerscough.ac.uk
Money Matters	There is lots of information on our website here: https://www.myerscough.ac.uk/students/fees-and-finance/fe-fees-and-finance/ If you have a question or would like some advice then you can contact the Finance Office on 01995 642398 or email bursary@myerscough.ac.uk

Applying for a place	<p>Online applications open on Sixth Form Open Evening every year. Apply via the Sixth Form page on the school website: http://saintwilfrids.co.uk/sixth-form/ Our prospectus is also available via the Sixth Form page, you can read through this to discover which courses we offer and the entry requirements for each subject. We welcome applications from all schools – you do not have to be a Year 11 student at St Wilfrid's to apply.</p>
How do I get selected	<p>All applicants will be invited for a face-to-face interview with one of the Sixth Form Team to discuss their course choices and future career ambitions. The entry requirements vary for each subject and this will be part of the course discussion. If an offer of a place is made it will always be conditional on meeting the entry requirements. The Sixth Form tab on the main school website http://saintwilfrids.co.uk/sixth-form/ has a virtual tour of the Sixth Form and short videos from students to help you get to know our school. These resources are being continually developed – so watch this space!</p>
Course information	<p>We are proud of our academic achievements at St Wilfrid's Sixth Form. The majority of courses we teach are A Levels with a limited number of vocational Level 3 options. Discover more by browsing through our courses on the Sixth Form homepage and watching short videos from each of the subject teachers. You can also read the Sixth Form Prospectus which is available to download or view online at: http://saintwilfrids.co.uk/sixth-form/prospectus/</p>
What can I do to help me prepare for Year 12?	<p>If you are given an offer of a place you will also be invited to an Induction Day after your GCSEs have finished. During this day you will have the chance to complete activities and taster lessons to allow you to sample your chosen subjects. These activities will include reading lists and web site links for further individual research. More formal Induction Tasks will be set following your enrolment. The Sixth Form tab on the main school website http://saintwilfrids.co.uk/sixth-form/ has a virtual tour of the Sixth Form and short videos from students to help you get to know our school. These resources are being continually developed – so watch this space!</p>
Further information and guidance	<p>If you have any questions then please contact Mrs Willoughby (Sixth Form Study Support) on cwilloughby@saintwilfrids.com or phone 01254 604009. You will be able to resit either Maths or English GCSE if needed. You will be timetabled additional lessons to cover these GCSE subjects and can sit the exams in the Summer term only.</p>
Money Matters	<p>The 16-19 Discretionary Bursary fund is designed to support students who have financial difficulty with accessing, or staying on, in education. Bursary funding is awarded on the basis of parental income and any Bursary funds awarded must be used towards the cost of travel, books and equipment etc. Additional support is available for students living independently. In the first instance, please contact Mrs Watson (Sixth Form Student Welfare Officer) on awatson@saintwilfrids.com or leave a voicemail message on 01254 604773.</p>
